

Which Flat Panel Mount Should I Use?

How do you want to mount your display?

Fixed Mount
Display mounts flat to wall and provides lowest profile. Ideal for simple, low cost installations.

Tilt Mount
Display mounts to wall, and can be tilted to provide best viewing angle. Ideal for mounting high on wall or over fireplaces.

Cantilever Mount
Display mounts to wall and can be pulled out, tilted, swiveled and panned. Ideal wherever maximum viewing flexibility is desired.

Flip Down Mount
Display mounts underneath cabinet or shelf. Provides tilt and swivel. Ideal for kitchens or bathrooms.

What is the screen size of your Display?

Small
13" - 24"

Medium
23" - 37"

Large
32" - 63"

QM100F
Fixed VESA Mount
40 lb. capacity
